Description: You can almost see the flag. Attached file: mrxbbox98.png

Just use exiftool for this, very simple flag. Of course don't forget to change parentheses to proper {} flag format

```
Exif Byte Order      : Big-endian (Motorola, MM)
Make                  : bucket(m3t4d4t4_4c53f444)
```

`bucket(m3t4d4t4_4c53f444}`
